## INTRODUCTION

This publication presents Kansas employment and wages for the second quarter of 2003. The ES-202 report, a compilation of data collected from the employer's Quarterly Wage Report and Unemployment Tax Return (Form K-CNS 1001) and the Multiple Worksite Report (BLS 3020), is the source of information for this publication.

Quarterly average employment and wages for the State and the Metropolitan Statistical Areas (MSAs) are included. Statewide and MSA data are now presented by North American Industry Classification System (NAICS) two-digit sector and three-digit subsector. NAICS has replaced the Standard Industrial Classification (SIC) coding system that has been utilized since 1939 and was last updated in 1987. NAICS provides enhanced industry comparability among the three North American Free Trade Agreement (NAFTA) trading partners Canada, Mexico and the United States. Establishments are grouped together based on their production processes.

Throughout the publication, information that cannot be released due to disclosure restrictions has been flagged with a "D." In some instances, tables may not add due to rounding. Additional information concerning this publication may be obtained by contacting:

## NAICS CODES (North American Industry Classification System)

NAICS is an industry classification system that groups establishments into industries based on the activities in which they are primarily engaged. It is a comprehensive system covering the entire field of economic activities, producing and non-producing.

## **ESTABLISHMENT**

An establishment, in NAICS United States, may be described as an economic unit, generally at a single physical location, where business is conducted or where services or industrial operations are performed.

## **REPORTING UNIT**

A reporting unit is the economic unit for which an employer submits data on an unemployment tax return, a statistical supplement or other employment and wage report.

## **EMPLOYMENT**

Employment for a given month is the number of employees covered by the Kansas Employment Security Law who work during or receive pay for any part of the pay period which includes the 12th of that month.

## **TOTAL WAGES**

Total wages are the total amount of wages paid to workers covered by the Kansas Employment Security Law for a quarter.

## **DISCLOSURE RESTRICTIONS**

Employment and wage data will not be disclosed for any industry level that has fewer than three reporting units or if one unit accounts for 80 percent or more of employment. In addition, K.S.A. 44-714(f) states..."Information thus obtained or obtained from any individual pursuant to the administration of this act shall be held confidential, except to the extent necessary for the proper presentation of a claim by an employer or employee under the employment security law, and shall not be published or open to public inspection, other than to public employees in the performance of their public duties."
